DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

In The Drawings:

The drawings are objected to because under 37 CFR 1.84 because the character of lines, numbers & letters are not uniformly thick and well defined in figures 1-3; the numbering, letters & reference characters are not plain and legible in figures 1-3; numbers, letters and reference characters must be at least 32 cm (1/8 inch) in height in figures 1-3. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The above objection(s) to the drawings will not be held in abeyance.

In The Specification:

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of **50 to 150 words**. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Art Unit: 3711

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
